

Vault Intelligence Ltd

Vault Intel empowers modern businesses to effectively manage their risk and make informed decisions. With offices in Melbourne, Sydney, Perth, Auckland, Christchurch, Shanghai and now Singapore, the team at Vault are leading the way in providing access to smart risk and safety technology to protect workers and improve productivity.

Specialising in Lone worker protection, the Vault Solo solution allows workers to raise duress alerts, have automatic fall detection and also includes automatic vehicle collision via driver behaviour monitoring.

Vault Solo utilises the best of breed sensor arrays in both Mobile phones, iOS or Android, and the Samsung Galaxy Watch to deliver 24/7 protection to your business.
