Wilson A.I.

Wilson A.I. Humanising A.I...

Wilson A.I. is a specialist Artificial Intelligence (A.I.) company developing A.I. solutions across multiple industry sectors and range of clients across Australia, Southeast Asia, the United Kingdom and Canada.

Wilson A.I. is helping companies to understand and apply A.I. and machine learning to solve complex business problems and optimise their business results.

Personalised A.I. solutions for business

Wilson A.I. is helping retailers to understand their customer experience and emotions in real time, using the latest Computer Vision Anonymous Facial Analysis AI, retailers can measure their customer foot traffic count, age range, gender, dwell times and emotions in real time. This demographic data can then be joined with existing retailer data sets such as Point of Sale Transactions, CRM data and much more to understand critical metrics such as in store sales conversion, retail advanced analytics, product range optimisation, store hot spots, dead zones and ultimately who is buying your products and who is not...
