Damstra Technology

Damstra provides digital protection and productivity solutions for the connected workplace.

World-leading, cloud-based workplace management platform for situational awareness, managing and protecting your workers, assets, site access, learning and HSE compliance.

An all-in-one, integrated solution with real-time dashboards and predictive analytics to drive innovation in safety, compliance and efficiency.

Human IoT and wearable innovations that provide compliant safety, COVID-19 safe return to work and increase P&L visibility for better decision making.

Accredited to ISO 9001 & 27001, SOC2 and NIC global standards.
